

NEED AN APP?

You dream it,
we build it.

Welcome to CTD Labs,
Code the Dream's
in-house software
development shop.

Our students from
diverse, under-
resourced backgrounds
work with professional
developers to create
affordable cutting-edge
web and mobile
technologies for our
clients and partners.

Contact us to discuss
how we can meet your
tech needs.

Recent projects include:

- A customizable, real-time legislative tracker for a growing startup
- An online tool for health care providers treating domestic violence survivors
- An app to notify rural farmworkers of natural disasters
- A rideshare app for homeless families

A WIN-WIN MODEL

"Code the Dream has done a fantastic job building a web app that our users are using every day and are loving! I've been extremely impressed with the speed, cost, and quality with which they've built the app."

--Kelly Garvy, client
Upstate, keepupstate.com

"My experience at Code the Dream has been great. The environment is very nurturing and community-oriented. There aren't many programs like this. CTD teaches every immigrant, stay-at-home-mom, or person interested in tech that their dreams are possible."

--Lennda Chen, student & intern

Code the Dream's
innovative model is a win-win:

Students from diverse
backgrounds build real apps to
launch their tech careers, and
our communities benefit from
the tools they create.

LEARN TO CODE.
WORK IN TECH.
SUPPORT YOUR COMMUNITY.

CLASSES

Code the Dream (CTD) provides free training in software development followed by the opportunity to apply for a paid apprenticeship, during which students create mobile and web technologies for a wide range of nonprofits and businesses.

The goal of our program is to provide a path to a life-changing career in tech for young people from diverse backgrounds and low-resourced communities. Classes are open to people over age 15.

Code the Dream now offers fully remote classes with personal mentorship to students across the United States.

STATISTICS

80%

of our student developers launch tech careers at startups and established companies like IBM & Cisco.

\$40MM

generated in additional lifetime earnings and scholarships for low-resourced students.
